<https://www.linkedin.com/in/tushar-hajare-a4bb2125b>

## Professional Summary

Experienced **Java Developer** with **3.4 Years** of experience in **Java, Spring Boot, Hibernate, Spring Data Jpa, Spring MVC, Design Patterns, Collections, Rest API, Microservices** and relational databases like **MYSQL database**. Passionate about writing clean, efficient code and continuously improving system performance and user experience. Proficient in designing, developing and maintaining scalable Java applications.

## Technical Skills

**Languages:** Java, J2EE, SQL, HTML, CSS, JS.

**Web Technologies:** JDK, HTML, CSS3, Log4J, Apache Tomcat.

**Frameworks:** Spring Frameworks, Hibernate, Spring Data JPA, and Design Patterns.

**Web Services:** REST API, Microservices, Maven.

**Tools/IDE:** Eclipse, IntelliJ Idea, MySQL Workbench, VSCode, Git, Jira, Postman, and Bitbucket.

## Relevant Work Experience

Senior Software Engineer

**VNH Infotech Pvt Ltd**

- Worked extensively with **Core Java, Java 8, Hibernate, Spring Framework (Spring MVC, Spring Boot), Apache Tomcat, GitHub, Maven** and **MySQL**, with basic knowledge of **Microservices**.

- Developed and maintained **RESTful web services** using HTTP REST/JSON, contributing to the full Software Development Life Cycle (**SDLC**) with a strong understanding of design patterns and Java backend development processes.

- Skilled in writing and optimizing queries for **RDBMS databases**, with hands-on experience in **MySQL**.

### Project 1

Jan 2025 - April 2025

**Company** : VNH Infotech Pvt Ltd

**Project Title** : PIERS System

**Client** : Princess Cruise Lines

**Technologies** : Java, Spring Boot Framework, Hibernate, Rest APIs, Spring Data JPA, MVC, Maven, MySQL, HTML, CSS, Jira, Bitbucket.

**Software** : Java 8, IntelliJ, MySQL Workbench, VS Code.

**Environment** : DEV, QA

**Role** : Senior Software Engineer

## **RESPONSIBILITIES**

- Developed REST APIs using Spring Boot, Performed validation for required fields, worked on Controllers, Services, and Repositories, and participated in end-to-end development.
- Implemented bug fixes as per client requirement.
- All the functionality is implemented using Spring Boot, Hibernate ORM and Spring MVC.
- Developing data models using Hibernate POJO's, configuring hibernate, and persistence layers.
- Participating in client scrum calls & story refinement sessions. Use GIT as version control tool and JIRA as Project Management Tool. Analysing the Client requirements and designing/implementing API structure.

### **Ascendion Engineering Pvt Ltd**

Jan 2022 – April 2024

#### **Senior Associate Engineer**

- Focused on developing and integrating high-performance Java Spring Boot APIs, contributing to complex backend solutions. Played a key role in the project.
- Implementing microservices architecture. Ensured top-tier code quality and optimized system performance through effective collaboration and testing.

### **Hefshine Software Pvt Ltd**

April 2021 – Jan 2022

#### **Software Engineer (Intern)**

- Developed a Patient Management System web application providing multi-device user interfaces for efficient management of patient visit.
- Contributed to developing independent software modules using user stories and wireframes.

## **Educational Details**

### **Bachelor of Engineering in Electronics and Telecommunication**

6.76 (first class)

Pune University (2020)

## **Certifications**

### **Received Customer Delight Team Award**

For our stellar performance (2023)

### **AZ-900 Microsoft Azure Fundamentals**

April 2024
